

***Providing Precision Tool Engineering, Services,
and Superior Products to the Metals Industry.***

Located in Beaver Falls, Pennsylvania, just 25 miles north of Pittsburgh, GESCO is able to conveniently provide pick-up and delivery service to industrial customers from Central New York to Detroit, Michigan and West Virginia.

GESCO was founded in 1986 by John T. Jasko, a graduate of Carnegie Mellon University, who has extensive experience in design and engineering of process tooling for industrial metal working firms.

GESCO provides the technical assistance needed to help extend tooling life and solve cutting problems.
